A Message from our Leadership

Mindi Anderson

Executive Director/President & Founder

I am truly honored and humbled to be a part of changing the narrative in which we as a state bridge the gaps between the Idaho and Military Communities. I wanted to take a moment to reflect on the incredible journey we've embarked upon together and reaffirm our steadfast commitment to serving Idaho's veterans and their families. At the Idaho Veterans Chamber of Commerce, our mission has always been clear: to empower, support, and honor those who have bravely served our country. Each day, we strive to further build a community

where veterans can thrive, find meaningful employment opportunities, access essential resources, provide home repairs and connect to home loan benefits, take steps towards next level of education to utilize benefits earned, start or grow businesses, and most importantly build lasting connections.

To our Idaho Community of Patriots, the mission of the Idaho Veterans Chamber of Commerce would not be successful if it was not for your dedication, patriotism, and compassion of the challenges the military community faces to provide a hand in connecting them with your career opportunities, business resources, housing and education benefits, and health or wellness resources.

I would like to take this opportunity to express my deepest gratitude to our members, volunteers, community partners, board members, team, ambassadors, and sponsors for their continued support and dedication. Your generosity and commitment play a crucial role in our ability to fulfill our mission and make a meaningful difference in the lives of our veterans and their families.

In the coming months, we are excited to roll out our final network launch of our Command Post Network across the state which began in 2023. We have chamber networks growing in the Northern, Eastern and South-Central portions of Idaho. As we look ahead to the future, let us stand together in solidarity, compassion, and service. As we continue to grow, we hope you will continue to walk alongside us. Together, we can do so much more to bridge the gaps between the Idaho and Military Communities to achieve remarkable success.

Jessica Koefod, Founding Board Chair

In this year's annual report, we are delighted to share the journey and impact of the Idaho Veterans Chamber of Commerce in championing veterans through navigations services, job programs and housing initiatives. In the realm of employment, our programs have not only equipped veterans with valuable skills but have also witnessed their seamless integration into the workforce. This community's engagement in our job boards and SkillBridge program created \$1.7M in economic impact across the state of Idaho. In the housing sector through our Tiny Homes initiative and our accessibility offerings, we've made noteworthy progress.

Through strategic initiatives, we've helped provided housing support, not just as a physical space but as a foundation for veterans to rebuild their lives. Your continued commitment has played a pivotal role in sustaining these initiatives. As we delve into the details of our achievements, we do so with a deep sense of gratitude for your unwavering support. Together, we've created meaningful impact and paved the way for a brighter future for those who have served our nation. Looking forward, we are inspired by the challenges and opportunities that lie ahead. With your continued partnership, we are confident in our ability to navigate these terrains and further enhance the lives of our veterans.

Thank you for being an integral part of IDVCCs journey and for making a lasting impact on the lives of those who have dedicated themselves to our country.

Board of Directors

Our founding Board of Directors serve the Idaho Veterans Chamber of Commerce from various regions of the State and bring a diverse background of experience in supporting our mission to launch, grow, and continue to be a valuable space for our Idaho and Military Community to come together and support the health of our eco-systems in Urban and Rural Idaho.

ABOUT NAVIGATION SERVICES

On average, 6 hours are spent within each navigation service request guiding our veterans, military serving, and their families towards resources.

Included in those 6 hours

01

Intake

An initial intake session that allows the navigation team to get to know the member and learn more about the need to then determine which navigation pathway they will take.

02

Support

Supporting navigation pathways such as career opportunities, business launch and growth, housing benefits, and repairs, exploring the right education benefits, and so much more.

03

Resource Review

A review of all the resources we have in our toolbox navigating towards or providing tools, mentorship, or resources, and connections.

04

Collaboration and Connection (Navigation)

Introduction emails and registration links to connect them to the resources or people within the communities they live in.

05

Navigational Beacon

Follow up to make sure they get the answers they need or are still on the right path, to let them know we are here as a **NAVIGATIONAL BEACON** to help redirect if needed.

06

Ongoing Support

Continue to provide information to attend workshops or events they would benefit from.

Each request is unique and different that takes different pathways. Some are directed to veterans resources, some are directed to Idaho community resources, and some are navigated to both.
